

# PRESENTING THE NEW IDRIAS GEWÜRZTRAMINER

It is with great happiness and excitement that we close out 2021 with the launch of a new product, Idrias Gewürztraminer 2021. This line is already integrated into the brand's new appearance, with a new bottle and new design, while retaining the concept of the Guara mountain range as a symbol.

Another estate wine produced through environmentally sustainable viticulture that reflects the unique personality of its terroir, originating from the Las Planas land parcel at an elevation of over 1,640 feet.

A gewürztraminer varietal, one of the varieties that has propelled the Somontano Designation of Origin to excellence in the production of white wines. This is a classic in central European viticulture, fully adapted to our soil and climate, but imbued by the Las Planas land parcel with its own personality.

The range of aromas is broad, intense and complex: floral notes (such as roses, lilacs, guava, orange blossoms and violets), fruity notes (exotic fruits, lychee and citrus peel), tea and a spicy quality, as indicated by the name of the variety itself (würzig, in German). It is silky and elegant on the mouth – a wine to savor, available as part of a very limited edition.
